

IN THE CLAIM

Please cancel Claims 1 to 2, without prejudice or disclaimer of the subject matter thereof, and add new claim 3. The added new claim 3 is based on the original claims 1 and 2 and Figs. 7 and 9, that is, to combine the features of claims 1 and 2 and feature in Figs. 7 and 9. The relation of the new claims with respect to the original claims are shown in the following REMARK, Examiners can read the claims more easily from the REMARK.

LIST OF CLAIMS

Claims 1 - 2 (Cancelled)

Claim 3. (New Claim) A golf club comprising:

a hand grip;

a club head, and

a club body between the hand grip and the club head; and a cross section area of the club body including

a front portion having a first inclined and a second inclined surfaces that define a front cusp in a front connection end of said first and said second inclined surfaces;

a rear portion having a third inclined surface and a fourth inclined surface that define a rear cusp at a rear connecting end of the third and fourth inclined surfaces; and

a middle section between the front portion and the rear portion; the middle section having two sides; one side being connected between the first inclined surface and the third inclined surface; and the other side being connected between the second inclined surface and the fourth inclined surface; each of the two sides being concave into the club body;

wherein in a direction from the handgrip to the club head, the club

body has at least one reduced segment having a smaller size than other portion thereof, and a shoulder enclosing a respective end of the reduced segment is formed between each reduced segment and an adjacent portion of the golf club; the reduce segment is wholly reduced from the adjacent portion.
